

Why should I have to suffer through mindless disc jockey's rant and rave about how much they dislike this country, but I can not purchase commerical free, or limited commerical interruption radio? Xm is more or less like cable tv. I, a natural born citizen of this great nation have the right to choose if I want to listen to the radio or purchase a subscription based service such as Xm. Xm is not violating any laws that I am aware of, so why is this petition before Congress? What ever happened to competition and free enterprise? Did it go out the window with companies like Microsoft?

Let Xm exist for the simple reason that this is a service-based economy and while the FCC may not like it, Xm is in no violation of any rules or regulations.

Thank you,

Ben Davidson  
avid Xm listener.
